

# Early-career Development Program

#### **Natural Resources Technician**

**Discipline:** Natural Resources

Installation: Colorado State University Campus/Remote

Location: Fort Collins, CO
# of Positions Available: 1
Duration: up to 6 months
Annual Salary: \$38,000-40,000

(Prorated for positions lasting less than 1 year)

Desired Start Date: 1st of June, 2024

#### **Position Summary**

The Natural Resources Technician will assist with various aspects of data management and analysis related to Department of Defense (DoD) Natural Resource projects. Specific duties include consolidating, sorting, and analyzing data that relates to emission or sequestration of carbon on DoD lands. The position will assist in developing a database to be used for land management projects across all DoD branches. Other responsibilities may include attending monthly meetings with stakeholders, geoprocessing using ArcGis, and regularly maintaining correspondence with all involved parties. This position has the potential to be fully remote.

## **Installation/Location Summary**

The main offices of the Center for Environmental Management of Military Lands (CEMML) are based on the campus of Colorado State University in Fort Collins, CO. Located in Northern Colorado about an hour north of Denver and a 45-minute drive south of Cheyenne, Wyoming, Fort Collins is consistently awarded one of the top places to live in the United States. The area is a perfect mix of city life and mountain accessibility.

#### **About CEMML**

The Center for Environmental Management of Military Lands (CEMML) at Colorado State University provides environmental management expertise to military installations and other federal properties across the continental U.S., Alaska, Hawaii, and overseas.

- Long track record of supporting military readiness and resource conservation—since 1985.
- Global reach with more than 700 staff embedded at more than 90 Department of Defense installations and other federal sites.

• Comprehensive experience in the development and implementation of cooperative agreements, grants, and contracts; more than \$100 million in projects each year.

### **About CEMML's Early-Career Development Program**

CEMML's Early-career Development Program provides students, recent graduates, and early-career professionals the opportunity to learn more about land management in the military and federal lands context. ECDP positions are the perfect opportunity to build connections, be mentored, and gain hands-on experience. Working under the guidance of seasoned natural or cultural resource professionals, participants learn practical applications and techniques. Participants contribute to conservation efforts and increase their understanding of the regulatory framework and the complexities of managing natural and cultural resources.

#### **Application Instructions**

The application process requires candidates to state their preferred region and focus area, and applicants will be considered for all applicable opportunities corresponding with their stated preferences. Please note that a statement of qualifications, resume, and three references will be required. Please remember to speak to all your skills and qualifications as they relate to the focus area. Feel free to include the specific position(s) you would like to be considered for.
