## Position Summary

A Cultural Resources Technician (Seasonal Worker, Full-time, 40 hours/week) position is available with the Colorado State University (CSU) Center for Environmental Management of Military Lands (CEMML). This position will provide entry-level training and experience on a range of cultural resource projects supporting the Cultural Resources Management (CRM) Program at Cape Canaveral Space Force Station (SFS), Florida. Duties will include but are not limited to the tasks below:

- Archaeological lab work, including cataloging artifacts and developing databases
- Aid with Phase 1 and Phase 2 archaeological fieldwork
- Perform reconnaissance photography for historical sites and buildings
- Conduct archival work at local museums and archives

Candidates must:

- Hold a bachelor's degree in history, archaeology, historic preservation, cultural resource management, or a related field.
- Have completed an archaeological field school or archaeology methods course
- Possess knowledge of Central Florida archaeology
- Be able to lift up to 50 pounds, kneel for extended periods of time, and work in harsh field conditions
- Possess strong organization skills
- Be capable of working independently
- Have proficiency in MS Office programs

## Installation/Location Summary

Cape Canaveral SFS is a 1,325-acre U.S. military installation located at Cape Canaveral, FL and is headquartered at Patrick Space Force Base. The primary mission involves preparing and launching U.S. Government, civil, and commercial satellites from Cape Canaveral SFS. The installation also provides launch facilities and services to

support the National Aeronautics and Space Administration (NASA), commercial space operations, and the U.S. Navy's Naval Ordnance Test Unit for missile tests and submarine operations. The Cape Canaveral SFS environmental program is responsible for providing continued mission access to natural resources by ensuring mission compliance with all related federal and local environmental laws. The Cape Canaveral SFS CRM Program monitors a myriad of historic sites, ranging from pre-Columbian to early rocket launch sites.

---

## About CEMML

The Center for Environmental Management of Military Lands (CEMML) at Colorado State University provides environmental management expertise to military installations and other federal properties across the continental U.S., Alaska, Hawaii, and overseas.

- Long track record of supporting military readiness and resource conservation—since 1985.
- Global reach with more than 700 staff embedded at more than 90 Department of Defense installations and other federal sites.
- Comprehensive experience in the development and implementation of cooperative agreements, grants, and contracts; more than \$100 million in projects each year.

## About CEMML's Early-Career Development Program

CEMML's Early-career Development Program provides students, recent graduates, and early-career professionals the opportunity to learn more about land management in the military and federal lands context. ECDP positions are the perfect opportunity to build connections, be mentored, and gain hands-on experience. Working under the guidance of seasoned natural or cultural resource professionals, participants learn practical applications and techniques. Participants contribute to conservation efforts and increase their understanding of the regulatory framework and the complexities of managing natural and cultural resources.

## Application Instructions

The application process requires candidates to state their preferred region and focus area, and applicants will be considered for all applicable opportunities corresponding with their stated preferences. Please note that a statement of qualifications, resume, and three references will be required. Please remember to speak to all your skills and qualifications as they relate to the focus area. Feel free to include the specific position(s) you would like to be considered for.
