MILITARY LANDS

COLORADO STATE UNIVERSITY

LRAM Light Equipment Operator

Schofield Barracks, HI

POSITION SUMMARY

An Hourly LRAM Light Equipment Operator position is available at Schofield Barracks, HI with Colorado State University (CSU) and the Center for Environmental Management of Military Lands (CEMML). The position is located in Schofield Barracks, HI. These positions cannot exceed 9 months, but opportunities for permanent positions may become available during or after a temporary assignment. These positions are contingent on continued project funding at Schofield Barracks Remote work is not allowed for this position.

The position will provide Land Rehabilitation and Maintenance (LRAM) support for US Army Garrison (USAG) Hawaii at Schofield Barracks. This position conducts soil stabilization and vegetation management activities in support of the LRAM component of the Army's Integrated Training Area Management (ITAM) Program at Schofield Barracks, Hawaii, by utilizing light equipment such as tractors, mowers, straw blowers, hydro-seeders, skid-steers. Equipment maintenance and inspections to keep equipment in good working condition and operation of crew trucks and trailers is also required.

Work will be on-site at Schofield Barracks and its associate sub-installations, Oahu, Hawaii. Located 20 miles from Honolulu on the plateau or "central valley" of Oahu between the two volcanic mountains that comprise the island, the nearly 18,000-acre installation is home to the U.S. Army Garrison, Hawaii.

ORGANIZATION

CEMML is a research, education, and service unit within the Warner College of Natural Resources at CSU. CEMML applies the latest and most appropriate science to promote the sustainable management of natural and cultural resources on Department of Defense (DoD) and other public lands. We provide technical support, conduct applied research, and offer career development and learning opportunities to support resource stewardship. We collaborate with our sponsors and other CSU departments to resolve complex environmental issues, leaving a legacy of science-based decisions that sustain our resources for future generations.
