About CEMML's Early-Career Development Program

CEMML's Early-career Development Program provides students, recent graduates, and early-career professionals the opportunity to learn more about land management in the military and federal lands context. ECDP positions are the perfect opportunity to build connections, be mentored, and gain hands-on experience. Working under the guidance of seasoned natural or cultural resource professionals, participants learn practical applications and techniques. Participants contribute to conservation efforts and increase their understanding of the regulatory framework and the complexities of managing natural and cultural resources.

Application Instructions

The application process requires candidates to state their preferred region and focus area, and applicants will be considered for all applicable opportunities corresponding with their stated preferences. Please note that a statement of qualifications, resume, and three references will be required. Please remember to speak to all your skills and qualifications as they relate to the focus area. Feel free to include the specific position(s) you would like to be considered for.
